Gobble Till You Wobble...

Dear Client,

On behalf of everyone here at [A.D.E. Restaurant Services, Inc](#) we are extremely thankful for the passing of the Small Business and Credit Act of 2010!!! If you haven't been watching C-SPAN, or MSNBC or Fox News lately you might have missed the exciting news... But what does this new act really mean to small businesses or start up businesses???

One of the major positives of this new act is the ability to directly expense a large portion of fixed assets acquired in 2010 and 2011 rather than depreciate them over the life of the asset. The great news is that this will now allow small businesses an added incentive to purchase new equipment within the next 14 months. Or if you have made any new purchases in 2010 prior to September you can take advantage as well. Small businesses can now write off investments in new capital expenditures immediately, as long as the purchase is completed during the 2010 or 2011 tax year.

Now if you would like to get the complete details on the [Small Business and Credit Act of 2010](#) or are just having a hard time falling asleep or in my case getting my little ones to sleep just click on the link above, and it will take you to the Senate Committee website and it worked great for me within five minutes my little ones were fast asleep...

Enough joking around though...I know everyone has their own reasons to be thankful and we are thankful for you...We just wanted to take this time to wish you and your family, friends, and office a Happy Thanksgiving...

Respectfully,
Your team at ADE Restaurant Services, Inc.
